

# HERCULITE™ COLUMN

## Tough, Lightweight Pultruded Column

### Features and Benefits:

- Weather resistant providing stable long-term performance.
- Low cost, low maintenance columns.
- Lightweight alternative to fiberglass/cast columns.
- Structural capacity of 5000 lbs. per column.
- Advanced pultrusion technology produces a load bearing column.
- Tough sidewalls, impact resistant.
- Just prime and paint using high quality latex paint.
- Easy to install and available with our patented Plumb Perfect® Installation System.

- > *Plumb Perfect makes installation quick and hassle free.*
- > *Also available for purchase with a contractor capital and base.*
- > *Column can be purchased separately.*

- Column, capital and base are shipped all-in-one-box.
- Choose from smooth non-tapered square columns in 8", 10" and 12" nominal widths and 8', 9' and 10' lengths.
- Columns are available in Split-Fit® for reassembly only.
- Lifetime Limited Warranty covers material performance when correctly installed.
- Made In The USA – The box and everything in it.

Available in: ■ Standard™ ■ Plumb Perfect® ■ Split-Fit®
